

Cedar Invasion Program

in conjunction with

Nebraska Great Plains Grassland Initiative

Questions:

Have pasture in the last intact grassland in the world, the Sandhills?

Need help managing cedar trees?

Answers:

*We provide up to **75%** cost share on cedar removal!*

Why, because we care about our last intact grassland!

TOO BUSY?

FIELD VISIT

COST ESTIMATES

ALL IN LESS THAN 28 DAYS

*is your pasture a
mess?*

"THE GREAT PLAINS ACCOUNTS FOR NEARLY 50% OF US BEEF PRODUCTION (WISHART 2004), A \$79 BILLION INDUSTRY (USDA ERS 2011), BUT LIVESTOCK PRODUCTION HAS DECREASED BY 75% IN AREAS WHERE GRASSLANDS HAVE BEEN CONVERTED TO JUNIPER WOODLANDS (FUHLENDORF ET AL., 2008)." (TWIDWELL ET AL., 2013)
